EASTERN SHORE GRANDEUR

Combining quiet sophistication with unapologetic romanticism, this breathtaking waterfront retreat along the Chester River offers surprise after surprise in every one of its many details, all of which were carefully considered by a collaborative team composed of architect and interior designer Purple Cherry Architects, custom builder GYC Group Ltd., and landscaper Campion Hruby Landscape Architects. As many as ten structures sit on the estate's 150 acres, including not only the main house and the guest house but also a carriage house, a pool house, a timber-frame entertaining barn, and much more. Altogether they encompass 44,000 square feet of space for living and entertaining, with meticulously plotted landscaping and hardscaping details. Among the many elements of the architecture and interior design that prove both beautiful and practical are the Chicago brick barrel-vaulted walls of the dining room, the wood-fire pizza oven in the kitchen, and the built-in shelves in the library and office.
